

AYOOLA AYODELE

SENIOR FRONTEND ENGINEER

London, United Kingdom | +447551113208 | ayodeleayoolaoke4@gmail.com | [linkedin.com/in/ayodele-ayoola](https://www.linkedin.com/in/ayodele-ayoola)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years of experience building **high-performance, scalable, customer-facing web applications** using **React, Next.js, and TypeScript**. Proven track record of delivering production-grade UI systems, optimising performance, and driving measurable business impact across web and mobile platforms. Experienced in rapid prototyping, experimentation, and shipping end-to-end features in fast-paced environments. Strong collaborator with backend and product teams, with a growing focus on **AI-assisted user experiences** and modern frontend architecture.

SKILLS

- **Frontend Development:**
React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Tailwind CSS
- **Performance & Quality:**
Performance optimisation, Core Web Vitals (LCP, CLS), lazy loading, code splitting, caching, accessibility (WCAG), testing (Jest, React Testing Library, Cypress/Playwright)
- **Architecture & Systems:**
Component-based architecture, design systems, reusable UI libraries, API integration, scalable frontend systems
- **Backend & Cloud:**
Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Redis, AWS, Firebase
- **Tools & DevOps:**
Git, CI/CD pipelines, Docker, Agile/Scrum
- **Product & Delivery:**
Rapid prototyping, experimentation, customer-focused development, cross-functional collaboration

PROFESSIONAL EXPERIENCE

SCANSAN PROPERTIES (London, UK)

June 2025 – Present

Senior Software Developer(Frontend Focus) (NextJS, Typescript, Tailwind, Git)

At ScanSan, I lead the development of high-performance, customer-facing web applications for a Web3-powered property investment platform, focused on delivering scalable and intuitive user experiences.

Key Responsibilities & Impact:

- Led development of **customer-facing web applications** using **React, Next.js, and TypeScript**, supporting property marketplace and analytics platforms
- Designed and implemented **reusable UI components and scalable frontend architecture**, reducing development time for new features by **25%**
- Built and optimised **real-time, API-driven interfaces** for property insights, tokenised assets, and investor workflows
- Improved frontend performance and responsiveness across devices, contributing to better user engagement and retention
- Collaborated cross-functionally with product, design, and backend teams to deliver **end-to-end features** in agile environments

- Introduced frontend best practices and code improvements, improving code quality and maintainability across the platform

Key Achievements:

- Delivered the frontend for **PAA (Property AI Assistant)**, enabling users to query and interact with location-based property insights
- Established reusable UI patterns and component structures, accelerating feature delivery and improving team productivity

RENTSPACE TECHNOLOGIES LIMITED

August 2023 – May 2025

Senior Software Engineer (Tech Lead)

- Built and launched a cross-platform savings and lending app using **Flutter** and **Node.js**, achieving **5,000+ MAU** and a **4.8** rating on both stores.
- Optimized transaction speed by **40%** through backend refactoring, including **SQL** indexing and async job queues for payment and notification flows.
- Architected scalable frontend and backend systems, improving transaction processing speed by **40%** through optimised APIs and asynchronous workflows.
- Integrated secure payment gateways (**Flutterwave, Paystack**), increasing checkout success rates by **30%** and reducing cart abandonment.

VANGUARD MEDIA LIMITED

April 2022 – August 2023

Senior Full-Stack Developer

- Delivered high-traffic, customer-facing web and mobile applications serving **5M+ monthly users** using React, Node.js, and Flutter.
- Improved frontend performance and scalability through caching strategies and optimised rendering, reducing API load by **35%**.
- Enhanced UI placement and user engagement flows, contributing to a **120%** increase in mobile ad revenue.
- Collaborated with **cross-functional teams** to ship features rapidly while maintaining performance and stability at scale.

DOWELL RESEARCH UK LIMITED

November 2021 – March 2022

Software Developer

- Architected and developed a full-stack UX research platform using **React, Python, and AWS**, serving **500+ enterprise** clients globally.
- Integrated **Stripe and PayPal** payment processing systems to handle international subscriptions and multi-currency transactions.
- Streamlined the user onboarding process by implementing responsive UI components with **Tailwind CSS**, enhancing the overall user experience for research participants.

FUDAP CO

January 2021 – October 2021

Frontend Mobile Developer

- Created a food ordering and delivery app using **React Native**, featuring **real-time GPS**, in-app payments, and loyalty programs.
- Boosted repeat order rate by **25%** with push notifications and incentives.
- Optimized app performance, reducing **cold-start times by 60%** on Android.

Frontend Web Developer

- Designed user interfaces for an **AI-driven** learning platform targeting **early-career developers** across Africa.
- Reduced front-end load time by **68%** through **lazy loading**, code splitting, and **refactoring** legacy code.
- Created developer onboarding documents, **coding standards**, held training sessions for new hires, and led the implementation of **Storybook** for documentation.

APTECH**April 2020 – July 2020****Junior Web Developer**

- Built internal tools and automated reporting systems, improving operational efficiency.
- Supported training and mentorship for junior developers, contributing to team skill development.

EDUCATION

Middlesex University | London, UK |**2025****BSc (Hons) IT & Business Information Systems** | *First-Class Honours (1:1)***Aptech Computer Education** | New Delhi, India |**2022****Advanced Diploma in Software Engineering** | *Graduated with Distinction (Top 7%)***CERTIFICATIONS**

Advanced Diploma in Software Engineering**Diploma in Information Systems Management****Certificate of Proficiency in Information Systems Management**
